

# Y-Bearing Plummer Block Units With Grey Cast Iron Housing "S"

## LYS 218 2F

Y-Bearing Plummer Block Units With Grey Cast Iron Housing "S"

### **Technical Specification**

L Overall length  A Housing contact surface width  A1 Width of the top of the housing  H Housing height  H1 Distance from the contact surface to the bearing axis	90 mm 327 mm 88 mm 54 mm
A1 Width of the top of the housing H Housing height	
H Housing height	54 mm
	3
H1 Distance from the contact surface to the bearing axis	200 mm
	101.6 mm
H2 Housing foot thickness	33 mm
Jmin Min. distance between the holes	254 mm
Jmax Max. distance between the holes	270 mm
N Height of attachment slot	27 mm
N1 Length attachment end	35 mm
s1 Distance from locking device side face to raceway centre	62.8 mm
kg Mass	14.6 kg
Cdyn Dynamic load rating	95.6 kN
Co Static load rating	72 kN
Pu Fatigue load limit	2.7 kN

#### Sealing

#### F SEAL / F SEAL (2F)

Dual sealing, protection cover placed on the inner ring protects against rough impurity particles and makes the labyrinth with the sheet part of the seal; then the sealing S type,

with the labyrinth between the sheet part and the rubber lip that conducts the contact sealing. The friction and speeds are the same as with S but has much better protection against rough impurity particles. It is very good sealing system: the sheet part protects the seal from the soil, dust and rough particles. At the same time makes the labyrinth with the rubber part. The rubber part provides the contact sealing that prevents the penetration of the finer impurities, water, moisture, steam etc. Suitable for heavier conditions due to better protection against foreign matters. It is used with the Y bearings (standard).
